

PRINCE2 Agile® is the world's **MOST COMPLETE PROJECT MANAGEMENT SOLUTION**, combining the **FLEXIBILITY AND RESPONSIVENESS** of agile with the **GOVERNANCE** of PRINCE2®. PRINCE2 Agile is an extension module offering additional guidance on how to **TAILOR PRINCE2** in an Agile context.

Why PRINCE2 Agile?

ORGANIZATIONS

Build on your investment and tailor PRINCE2 in an agile context

Consistently be on time and hit deadlines

Increase collaborative working between teams

Deliver projects iteratively and incrementally

Increase stakeholder confidence

WHO TO TARGET?

1. Organizations who have previously invested in PRINCE2
2. Organizations who are interested in working in an agile way
3. Any industry can benefit from agile - business support and financial services rated agile most highly according to our 2016 PRINCE2 Report.
4. Key roles: CIO, senior PMO roles (such as head of PMO), senior programme and project managers & senior L&D and HR roles.

INDIVIDUALS

Stand out in the job market with this new qualification

Learn how to tailor PRINCE2 in an agile context

Gain a broad range of agile concepts and techniques including: Scrum, Kanban, Lean Startup and Cynefin

80% of individuals see the value of agile - embrace the change in approach

WHO TO TARGET?

1. You will be primarily targeting PRINCE2 Foundation or PMP certificate holders
2. Anyone working in any industry can learn from Agile methods and techniques
3. Key roles: project managers, programme managers, project admins, project co-ordinators, team leaders/managers.

KEY FACTS

FREQUENTLY ASKED QUESTIONS

Q: Why do I need PRINCE2 Agile over other agile project management qualifications available?

A: PRINCE2 Agile is the only agile project framework covering the full spectrum of Agile, including **SCRUM, KANBAN, CYNEFIN AND LEAN STARTUP**. Unlike other agile PM methodologies, PRINCE2 Agile explains how they work and how to incorporate them into a project environment

Q: Isn't Agile an IT delivery tool? I don't work in IT so I don't have any interest in agile.

A: Whilst agile is mainly associated with IT delivery, it is essentially about creating a **QUICKER WAY TO PROVIDE NEW PRODUCTS AND DELIVER NEW SERVICES** to customers, and this is fundamental to most organizations. Agile can add value to **any industry or function**.

Q: Won't this new qualification make the existing PRINCE2 qualification redundant?

Not at all. **PRINCE2 IS AGILE ENABLED** and so PRINCE2 Agile offers specific guidance on how to tailor it in a agile context.

Q: Is there a book called PRINCE2 Agile?

A: Yes, there is a guidance publication for PRINCE2 Agile. This is typically **PROVIDED WITH TRAINING**, or can be purchased direct from either AXELOS or TSO (the publisher).

Q: Is there a qualification for PRINCE2 Agile?

A: Yes, there is a qualification, which is PRINCE2 Agile Practitioner. This is a challenging **2 AND A HALF HOUR EXAM WITH MULTIPLE CHOICE** scenario based questions.

Q: Is there a prerequisite for PRINCE2 Agile?

A: Under normal circumstances, you need to be a current **PRINCE2 PRACTITIONER**. This means that if you were certified (or have taken the re-registration exam in the last 5 years) or have obtained your PRINCE2 Practitioner digital badge from the AXELOS Membership Programme, you are eligible to sit the exam. However **FROM 1 OCTOBER 2016 TO 31 DECEMBER 2017** we will be running our **GLOBAL PRINCE2 AGILE PILOT** which will reduce the pre-requisite requirements.

Q: How does the pilot work?

FROM 1 OCTOBER 2016 TO 31 DECEMBER 2017 you can sit the PRINCE2 Agile training course and examination with just the **PRINCE2 FOUNDATION** certification and other equivalent project management certifications. If this pilot is successful (i.e pass rates are not reduced as a result) the pre-requisite will be permanently lowered.

Eligible certifications now include:

- **PRINCE2 FOUNDATION**
- **PROJECT MANAGEMENT PROFESSIONAL (PMP)**
- **CERTIFIED ASSOCIATE IN PROJECT MANAGEMENT (CAPM)**
- **IPMA LEVEL A®-D®**
