WELCOME

Thank you for joining the PMI Authorized PMP Exam Prep course!

If you've earned your CAPM® certification with us, welcome back.

Or if you're coming from another project management background, certification, or work experience, we are pleased to welcome you to PMI's community of learning.

We are proud of our 50-year history of peer-to-peer learning and membership and wish you the best of luck as you undertake your PMP exam preparations.

The New PMP[®] Exam

The new PMP exam includes content that spans the value delivery spectrum, including **predictive**, **agile**, and **hybrid** approaches. It's been updated to reflect the fuller complement of skills and approaches found in our dynamic and global profession.

Just like the sides of PMI's Talent Triangle[®], we focus on three new performance domains in project management:

People, Process, and Business Environment

Learning Topics

The learning topics in this training come directly from the PMP exam content outline (ECO).

The ECO was updated by PMI membership and includes what they think you need to know to do the job. This encompasses experience and broader business concepts.

The ECO is the basis for the new PMP exam, which went live in January 2021.

The New PMP® Exam Format

- 180 questions
- 230 minutes to complete the exam with a total of two, 10-minute breaks for computer-based tests. Paper-based exams have no breaks.
- Questions are multiple-choice, multiple response, matching, hotspot, and even some fill-in-the-blank.
